Engaging Middle School Teachers and Students with Alice in a Diverse Set of Subjects

Susan Rodger
Duke University

SIGCSE 2009
March 6, 2009

Supported by the National Science Foundation Collaborative Grant ESI-0624642, 0624654, 0624528, NSF Supplement DRL-0826661, two CRA distributed mentor awards, and two Faculty Awards from International Business Machines.

Outline

- Motivation and background
- Adventures in Alice Programming overview
- Middle School Alice Tutorials
- Middle School Alice Examples and Lesson Plans
- Usage of Alice by Middle School Students
- Summary and Future Plans

How do we Introduce and Teach Science?

- Physics – experiments
- Chemistry - experiments
- Biology - experiments

Thanks to my CoAuthors
Henry Qin, Gaetjens Lezin, Jenna Hayes, Ruthie Tucker, Debra Nelson, Wanda Dann, Steve Cooper, Mercedes Lopez and Don Slater
We don’t introduce Computer Science in K-12!

- Not taught in middle schools and many high schools
- Students don’t know what computer science is!
- What they think it is:
  - “keyboarding, spread sheets, word processing....”
- VERY EXCITING ......... NOT!

If taught, how do we introduce CS?

```java
public class Simple {
    public static void main(String[] args) {
        System.out.println("Hello World!");
    }
}
```

- Write a calculator
- Write a banking program
- Etc...

Why Can’t the Introduction of Computer Science be exciting?

- Programming – it’s always been
  - Hands-on
  - Interactive
  - Frustrating!
- What’s missing?
  - Not Getting Exciting Results
    - Easily, right away
  - Not appealing to today’s kids in which media and technology are a part of their life!

Bring on Alice Virtual Worlds!

- Alice is
  - Hands-on!
  - Interactive!
  - Exciting Results right away!
- Alice has the potential to excite kids about computer science in the same way that experiments excite kids about chemistry, physics and biology!
Alice Programming Language

- Create interactive stories or games
- Learn programming in an easy way, drag-and-drop your code
- Learn computer science concepts:
  - Loops, classes, methods, functions, arrays
- Developed at Carnegie Mellon University
  - Professor Randy Pausch
- Alice is free:  **www.alice.org**

Alice Programming Language

- Has libraries of 3D objects
- Keeps Track of objects you select

Objects Have Multiple Parts that are moveable

Alice Code is Easy to Learn

Select Code, Drag-and-Drop code in program
Play Alice Animation

• Chicken rises, cow turns head and talks

CompSci 4 – Alice Class at Duke

• Lecture for 10-20 minutes
• Students work on problem with computers in pairs
• Bring students back together

Success - Alice attracts diverse group
• At Duke
  – CompSci 4 Spring 2005
    • 22 preregister, 30 enroll (12 female + 3 African Amer.)
  – CompSci 4 Fall 2005
    • 20 preregister, 31 enroll (17 female – 1 African Amer.)
  – CompSci 4 Fall 2006 – 2 sections
    • 64 students, 33 female, 7 African Amer.
  – CompSci 4 Fall 2007 – 2 sections
    • 84 students - > 50% female
  – CompSci 4 Fall 2008 – 2 sections
    • 100 students - > 50% female
• Advertised in school paper
  • picture of ice skater
  • Web site of animations

Games Created by Duke CompSci 4 Students

• Non-majors
• Most never programmed before
• Final projects after 10 weeks of Alice
• 50% of students are women
• Spring 05, Fall 05, Fall 06, Fall 07, Fall 08
Game: Candyland
Select girl and boy to play
Click on red and green buttons to move them.

Game: Frogger – Get frog across road

Game: Eragon
4 tasks to win the game

Game: Tic Tac Toe

Game: DDR
Click on arrow keys, Player moves foot to square
Game: Dating Game

Game: Rumble Putt

Game: Sarah Palin’s Seaplane Adventure

Sarah Palin’s Seaplane Adventure (cont)
Outline

• Motivation and background
• Adventures in Alice Programming overview
• Middle School Alice Tutorials
• Middle School Alice Examples and Lesson Plans
• Usage of Alice by Middle School Students
• Summary and Future Plans

Adventures in Alice Programming

• Integrate Alice into high school and middle schools by training teachers
• Six sites:
  - Durham, NC
  - Charleston, SC
  - Virginia Beach, VA
  - Denver, CO
  - Oxford, MS
  - San Jose, CA
• Durham site focuses on Middle Schools in NC
  www.cs.duke.edu/csed/alice/aliceInSchools

Duke: Adventures in Alice site

• Summer 2008
  - 3-week Teacher workshop
    • 35 teachers, mostly middle school, some high school
    • Only a few had ever programmed before
    • Subjects: english, math, science, history, art, technology
    • Taught them Alice, Developed Lesson Plans
  - Two one-week middle school camps
    • Taught Alice
    • Lots of time to build their own Alice worlds
  - Overlap between the two
  - Followup Teacher workshop Summer 09
How to Use Alice in Middle Schools

• Teachers
  – Examples in lecture
  – Make interactive quizzes
  – Make worlds on concepts for students to view

• Students
  – Projects (in place of a poster, a model)
  – To take quizzes
  – To view and answer questions about a world

Outline

• Motivation and background
• Adventures in Alice Programming overview
  • Middle School Alice Tutorials
  • Middle School Alice Examples and Lesson Plans
• Usage of Alice by Middle School Students
• Future Plans

Three Introductory Tutorials

1. Simple, Short (15 min) tutorial to try Alice
   – Add an object, use built-in methods
2. One hour tutorial for younger kids
   – Writing methods, simple events, camera
3. Four part tutorial for middle school kids
   – More detailed on placement of objects, writing methods, events, camera control
   – How to put a person on a horse
   – Answer a cell phone

Many short tutorials on CS Topics

• CS Topics
  – Programming – sequential and “at the same time”
  – Methods
  – Events
  – Looping
  – Conditionals (making a choice)
  – Functions (compute and return an answer)
  – Lists
  – Variables
Other “Fun” Topics Blended in

- Storyboards
- Changing camera views
- Scene changes and lighting
- Making Billboards
- Making objects invisible and visible
- Sounds
- Glueing objects to others

Outline

- Motivation and background
- Adventures in Alice Programming overview
- Middle School Alice Tutorials
  - Middle School Examples and Alice Lesson Plans
- Usage of Alice by Middle School Students
- Summary and Future Plans

Science Example: How a volcano is formed

How a volcano is formed (slide 2)
How a volcano is formed (slide 3)

Over thousands of years, the volcano builds up...

How a volcano is formed (slide 4)

And emerges above the ocean as an island.

Math Example:
Teacher Lesson Plan on quadrant plane

- Click on lighthouse
- Enter x,y position
- Objects randomly move

Magic Tree House Quiz
Famous Children’s Book Series

5. What type of tree is the treehouse on?
- maple
- oak
- a magic tree of no special type
- elm
- I don't know

Score 5.0
Kitty Story – children’s book on handicapped child

By Betty Stone
Animated by Deborah Nelson

Let’s visit Little Kitty the kitty. She lives with her Daddy, her Mommy, and her sister, Moon Song.

Sometimes Her mom takes her to the Doctor so that she can check out her knee. Sometimes that hurts a bit and sometimes it doesn’t.

At night, her mom or dad puts leg splints on her knees. Kitty does not like this one little bit! She does a good job of crying.
Other Ideas for Projects

- Story from Ancient Egypt
- Spanish Quiz in which you see a word and have to click on the object the word represents
- Animate a scene from a book you have read or a poem you have written
- Create a world about school safety
- Memory game – remember a random color sequence
- Math Quiz – Answer the questions

Alice worlds for these and more are on our website.

Other Teacher Lesson Plans

- Math
  - Finding surface area
  - Rate of Change and Slope
- Science
  - Create a food chain
  - Sun, Earth and Moon system
  - Tornados
  - Physics – Newton’s law of gravity
  - Alternative Energy

Other Teacher Lesson Plans (cont)

- History/Social Studies
  - The continents – view world and answer questions
  - Animated overview of Japan
  - Animated overview of Egypt

- English
  - Write and animate a poem
  - Animate a poem or scene from a story
  - Write a movie trailer

Outline

- Motivation and background
- Adventures in Alice Programming overview
- Middle School Alice Tutorials
- Middle School Alice Examples and Lesson Plans
- Usage of Alice by Middle School Students
- Summary and Future Plans
What type of objects did they use?

• Girls top five
  – People, animals, environments, nature, 3D-text

• Boys top five
  – Vehicles, people, buildings, scifi, special effects
And more fire

And more fire!

Girl Examples – Dancing chicken

Girl Example 2 - Egypt
Girl Example 3 – Attack of the lemurs

Girl Example 4 – carnival

Girl Example 5 – rescue baby

How did the Students use Alice?

- Examined worlds to see which concepts they used

CS Topics

Basic topics
Feedback from Parents

• “[My daughter] thoroughly enjoyed her week with you. It was a great experience!”
• “I’m convinced. Kids like Alice and Alice is a good way to teach kids programming. [My son] is doing my python course and he’s not all that interested in python and never touches it between the courses. However, in the evenings when he comes home from the Alice course, he works on his Alice worlds.”

Outline

• Motivation and background
• Adventures in Alice Programming overview
• Middle School Alice Tutorials
• Middle School Alice Examples and Lesson Plans
• Usage of Alice by Middle School Students
• Summary and Future Plans

Summarizing

• We developed
  – Tutorials
  – Examples of possible use in Middle Schools
• Teachers developed
  – Lesson Plans for history, science, math, language arts, art, and technology
  – Animation Fair
• Middle School Students
  – Were engaged, developed their own worlds
  – Animation Fair
  – Difficult to get away from the computer

All materials are on our website.

Followup

• Teachers use Alice during the school year
• Followup 2-3 day workshop in Summer 2009
  – June 15-16
• Visited one of the schools
• Presenting at the local public school technology day
Alice Symposium and workshops in 2009

- June 17, 2009 – Alice Symposium
  - Submit papers by March 15th
- Two one-week Alice workshops
  - June 22-26
  - June 28- July 2
- Two day Alice workshop
  - June 15-16
