Classroom rule:
NO SITTING IN THE LAST FOUR ROWS!

Come join the rest of us!

Get students closer to you

Quick Poll: Who's in the room?

Current instructors?
Average class size?

TAs?

Students who plan to teach someday?

High school teachers?
Ways to select students to answer questions

Problem – same students always eager
How do you get other students to participate?
  Randomly call on them (card for each student)
  Keep track of who has spoken already
  Work in groups – call on group
  Assigned groups – call on group numbers

Read the book

Read before coming to class
Ready to work in class
Reality
Run out of time to read, not prepared
Bring on – Reading quizzes
Online (Sakai, Blackboard, etc)
Turn off when class starts

Have an engaging book....

Pair Programming

Students work on problem with one computer in pairs
  “Driver” and “navigator” - rotate often
  Shown to improve student learning outcomes and retention
Interactive Lecture Notes and Handouts
Create two versions of lecture notes

TECHNIQUES

Think - Pair - Share

Collaborative Learning Strategy

- First answer question individually
- Partner with peer to develop answer
- Share answer with class

Advantages:
- Increases classroom participation
- Higher confidence in reporting ideas to class
- More productive classroom discussions

Got workshop new idea fatigue?

Don’t beat yourself up!
Choose the amount of change you’re ready to make:

- Minor tweaks
- Significant overhaul
- More traditional
- Pervasive active learning

Every little bit helps! The more active learning, the more students benefit.

Adding active learning to your classroom:
A spectrum from tiny tweaks to significant overhaul

Classroom Assessment Techniques (CATs)

Simple, Non-graded, In-class Activities

- Exit Tickets
- Muddiest Point (what was most confusing topic today)
- One Minute Papers (what was most important topic learned today)
- Student Generated Test Questions
Pervasive Active Learning

Long List for Reference

• Peer Instruction (PI)
• POGIL (Process Oriented Guided Inquiry Learning)
• PLTL (Peer Led Team Learning)
• PBL (Problem Based Learning)
• Studio Based Learning

What else have you tried in your classes? What else could you do?

Think - Pair - Share

Every little bit helps! The research shows the more active learning, the more students benefit.

Pushback

Faculty Colleague Resistance

• What pushback might you get if you tried to recruit a colleague to do active learning?
• How would you respond?

Student Resistance

• What pushback might you get from students for doing active learning?
• How would you respond?

How to Survive Large Courses

- Cut back on Email
- Use Bulletin Board – like Piazza
  - Students can post anonymously
  - Lots of people can be answer questions
  - You can endorse answers
- Manage with google forms
  - Form if you are sick and need extension
  - Form if you get test accommodations
  - Form to sign up for alternate exam time
  - Form to request a regrade
- Automate Grading of Assignments

Duke: large = 300-350

Assessing Course/Teaching

- Course Evaluation – end of semester
- These matter to your Dept/University
- What do the majority say, ignore outliers
- Get feedback earlier – do your own
- Have anonymous form for feedback and encourage
- Get Someone to sit in and provide feedback
- Determine what you need to improve on

Teaching Assistants

Undergraduate/Graduate

- Mandatory training session
- Behavior - Don’t date your students
- How to help someone
- What not to do
- Link to Duke site
  www.cs.duke.edu/courses/spring15/compsci101/training/
- Meet weekly with them
  - Make them do X before they help students with X

Improving Teaching

- Is there a teaching and learning center?
- Video tape yourself and watch it
- Class boring? Voice monotone?
  - Practice tongue-twisters
  - Take theatre or public speaking course
  - Toastmasters
- Talk too fast? Note to remind to slow down
- Don’t move? Start moving around
  - Get a wireless/laser presenter
Improving Teaching
