## Diversifying the Faces in Computing

Susan H. Rodger  
Duke University

### Juniper Networks

June 27, 2023

San Jose, CA

### • About Me and My Journey

- Diversifying Computing
- Programs for Change
- Recognition and Visibility

6/27/23

Juniper Networks

1

## About Me

- Professor of the Practice of Computer Science, Duke University, since 1994
  - Teaching primarily
  - Research, write grants, supervise students
- Research Areas:
  - Computer Science Education
  - Visualization and Animation
  - Tools for learning CS
    - JFLAP used worldwide
  - Integrating computing into K-12

6/27/23

Juniper Networks

3

## Hobby: Edible CS

Turing machine  
made out of  
blueberry muffins  
and icing

Finite State  
Machine  
made out of  
cookies  
and icing

6/27/23

4

## My Journey to Full Professor

- Overcoming Struggles
- Lack of Diversity

6/27/23

Juniper Networks

5

## Starting way back

- Very shy
- Me and my sisters
- Liked math and puzzles
- No internet
- My World Wide Web

Juniper Networks

6

## Where to go to College in 1979?

- Lived in Raleigh, NC
- Mother did not finish college
- Father had BS degree in Engineering
- Went to local university

6/27/23

Juniper Networks

7

## College – North Carolina State University

**NC State**

- Took programming course first semester
  - PL/1
- Double major - Math, Computer Science
- Systems programmer in University Computing Center

```
Hello2: proc options(main);  
    put list ('Hello, world!');  
end Hello2;
```

6/27/23

Juniper Networks

8

## Where to go next?

- No one in my family had a graduate degree
- Assumed I would get a job
- Undergraduate Research Assistant
  - David McAllister, Numerical Analysis
- Question led me to meet my Math Advisor
  - Dana Latch, Math Professor

You should go to Purdue

David McAllister

Dana Latch

You are going to graduate school, aren't you?

6/27/23

Juniper Networks

9

## Applied for jobs and PhD programs

- Issue with my GRE score
  - Quantitative - 90%, high GPA
  - But Verbal - low score - 28%
- Prof. Latch referred me to psychologist

Huge Discrepancy!

I would never have thought to do this

6/27/23

Juniper Networks

10

## Applied for jobs and PhD programs

- Issue with my GRE score
  - Quantitative - 90%, high GPA
  - But Verbal - low score - 28%
- Prof. Latch referred me to psychologist
  - Evaluation (Feb 1983):
    - "...Miss Rodger has a learning disability. ... this disability is a subtle one and a discreet one that affects her ability to retain small bits of verbal information."
    - "I believe that deficits in both of these areas are primarily responsible for her low GRE Verbal score..."
    - "present no reason to indicate that Miss Rodger's intellectual capacity would not be sufficient to handle graduate work in the area she will enter."

Huge Discrepancy!

Sent letter to graduate schools

6/27/23

Juniper Networks

## Graduate School at Purdue

- Purdue admitted me conditionally
  - Demonstrate proficiency in English Composition

Nailed that first month!

- Completed PhD in Algorithms 1989
  - Advisor: Greg Frederickson
- What was the diversity like?
  - Few women there
  - Only female student in some courses
  - One year only female PhD student
  - Only one female faculty member my first year
  - Two female faculty the rest of the time

Greg Frederickson

6/27/23

Juniper Networks

12

# Assistant Professor Rensselaer Polytechnic Institute

- 1989-1994
- Continued research in algorithms
- Fell in love with teaching

## • Diversity?

- 1989 - Hired only two women faculty in dept – me and Ellen Walker
- No other women hired while I was there

Ellen Walker

6/27/23

Juniper Networks

13

That is my journey  
What about my disability?

6/27/23

Juniper Networks

15

# Assistant Professor of the Practice Duke University

- Since 1994
- Assistant -> Associate -> Professor of the Practice
- Diversity?

- There was one female faculty there when I came in 1994, Carla Ellis
- Two women faculty were hired in 1994 – me and Xiaobai Sun
- 1994 – 3 women faculty – 12%
- 2008 Ellis retired, Hired Xiaowei Yang
- 2015 Hired Sudeepa Roy and then more
- 2023 now have 12 women, 27 men – 30%

Carla Ellis

Xiaobai Sun

Xiaowei Yang

Only 3 women faculty for 21 years

6/27/23

Juniper Networks

14

## What about My Disability?

- Diagnosed as heading to Graduate School
- Never got accommodations in Graduate School
- Never got any accommodations as a Professor
- It has been hard!
- Takes me longer to do things
  - Writing
  - Organizing thoughts
- November 2021
  - Diagnosed with high-functioning Autism and verbal-based disability
- Been easier to talk about with several organizations

Nice to have names for my disabilities

6/27/23

Juniper Networks

16

## Outline

- About Me and My Journey
- **Diversifying Computing**
- Programs for Change
- Recognition and Visibility

How did we get from 12% women CS faculty at Duke for 21 years, to 30%?

- All science depts had 0 to 3 women faculty
  - Created Senior Women in Science in 2004
  - Met with the Dean regularly
  - Got funding to bring in outside women speakers and other initiatives
    - Hired one of the speakers
    - Clare Booth Luce Assistant Professorship – for women only
- Now all science depts have 8+ women faculty

6/27/23

Juniper Networks

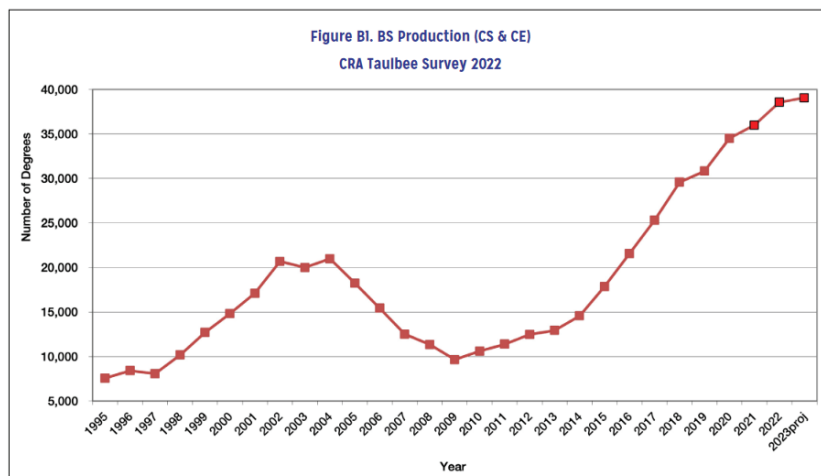

17

6/27/23

Juniper Networks

18

## CRA Taulbee Survey 2022 There are a lot of students in CS!

6/27/23

Juniper Networks

19

## Are there women in CS?

- Computing Research Association (CRA)
  - Taulbee Survey 2020-21
    - 22% female PhD's granted in computing
    - 26% female PhD's current enrollment
    - 31% female MS graduated
    - 23% female BS graduated

We need  
to do  
better!

6/27/23

Juniper Networks

20

# Missing underrepresented groups in Computing

- Computing Research Association (CRA)

- Taulbee Survey 2020-21

- 1.7% Black/AfA PhD's granted in computing
    - 1.7% Hispanic PhD's granted in computing
    - 1.9% Black/AfA PhD's enrolled
    - 2.1% Hispanic PhD's enrolled
    - 1.9% Black/AfA MS graduated
    - 2.8% Hispanic MS graduated
    - 3.9% Black/AfA BS graduated
    - 9.6% Hispanic BS graduated

These  
numbers  
are really  
dismal!

If they don't know about  
computing or see themselves in  
computing, they won't choose it  
as a field

Alice programming  
Program 3D objects – drag and drop

- [alice.org](http://alice.org) – by Randy Pausch, CMU

Alice programming  
Program 3D objects – drag and drop

- [alice.org](http://alice.org) – by Randy Pausch, CMU

## My Alice efforts

- 2002 – added Alice to one section of a course, was favorite part of course!
- 2005 – Created a Non-majors course on Alice programming
  - Course attracts around 50% females
- 2006 – Duke Femmes program
  - Taught Alice to 4<sup>th</sup> to 6<sup>th</sup> grade girls
- Realized need to
  - Get into K-12
  - Teach teachers

6/27/23

Juniper Networks

25

## Adventures in Alice Programming

[www.cs.duke.edu/csed/alice/aliceInSchools](http://www.cs.duke.edu/csed/alice/aliceInSchools)

- 2-week Teacher workshops
  - Over 500 teachers, middle school, high school, some elementary
  - First week Teach Alice, Practice
  - Second week - Develop Lesson Plans
  - All disciplines: math, science, history, language arts, foreign language, art, music, business
  - Summers 2008-2017
- Main Sites:
  - Duke University, Durham, NC
  - Charleston/Columbia, SC
  - San Jose, CA
  - Lincoln, Nebraska
- THANKS IBM and NSF

Juniper Networks

26

## Created online Coursera course

*Introduction to Programming and Animation in Alice*  
 Launched in January 2020, with Steve Cooper

6/27/23

Juniper Networks

27

## Outline

6/27/23

Juniper Networks

28

## Grace Hopper Celebration on Women in Computing

- Anita Borg, co-founded GHC conference in 1994 (with Telle Whitney), 500 attendees
- She died in 2003, Brain cancer
- GHC: 1994, 1997, 2000, 2002, 2004, 2006, then annually
- Now run by the Anita Borg Institute
- 2010 (2000 attendees), 2019 (25,000 attendees)
- Mentoring talks, See many people like yourself – Empowering!

Anita Borg

Juniper Networks

30

## Richard Tapia Celebration of Diversity in Computing

- Founded by Valerie Taylor and others, sponsored by ACM and CMD-IT
- Named after Richard Tapia, Mathematics Professor at Rice, leader in education and outreach
- Connect with common backgrounds, race, ethnicities, disabilities and gender to create communities.

Valerie Taylor

Richard Tapia

6/27/23

Juniper Networks

31

## Richard Tapia Celebration of Diversity in Computing

- Connect with common backgrounds, race, ethnicities, disabilities and gender to create communities.
- Started in 2001, with 164 attendees
- 2001, 2003, 2005, 2007, 2009, 2011, 2013 now annual
- In 2019, 1920 attendees

Valerie Taylor

Richard Tapia

6/27/23

Juniper Networks

32

## Computing Research Association – Widening Participation (CRA-WP)

<https://cra.org/cra-wp/> 

- Mission: Increasing the success and participation of populations underrepresented in computing research
- Been a Board member since 2009 and currently Co-Chair
- Since 1991, over 30 years!
- Formerly CRA-W (Women)

6/27/23

Juniper Networks

33

## CRA-WP Programs - Undergraduates

(Computing Research Association Widening Participation)  
(Previously CRA-W, for Women)

- DREU – Summer undergraduate Research program with Faculty at another university
- Mentoring at Grace Hopper Conf and Tapia Conferences
- UR2PHD – new research program to increase more women to graduate school (with CRA-E (education))

6/27/23

Juniper Networks

34

## CRA-WP Programs – Grad Students

(Computing Research Association Widening Participation)  
(Previously CRA-W, for Women)

- Grad Cohort Workshop for Women – Mentoring workshop for women grad students
  - 2-days in person in April annually
- Grad Cohort Workshop for Inclusion, Diversity, Equity, Accessibility and Leadership Skills (IDEALS)
  - 2-days in person in March annually
- CSGrad4US Fellowship
  - Mentorship for a year while you apply to PhD program to go back to school (BS degree in computing before 2021), plus Fellowship to attend (must be US Citizen or perm resident)

6/27/23

Juniper Networks

35

## CRA-WP Programs – Faculty/Researchers

(Computing Research Association Widening Participation)  
(Previously CRA-W, for Women)

- Early Career Mentoring Workshop (CMW)
  - For Postdocs, Assistant Professor or equivalent level in Industry/Gov labs
- Mid-Career Mentoring Workshop (CMW)
  - For Associate professors or equivalent level in Industry/Gov labs
- Both are:
  - 2-day Mentoring workshops with senior leaders
  - For women and underrepresented researchers in computing
  - Nov 2-4, 2023 in Chicago, IL
  - <https://cra.org/cra-wp/mentoring-workshop/>

Apply now by July 10!

6/27/23

Juniper Networks

36

# National Center for Women and Technology (NCWIT)

- Network of change leaders focused on advancing innovation by correcting underrepresentation in computing
- Three main alliances
  - K12, Academic, Workforce
- Example of Workforce Alliance resource:
  - Resources on recruiting and retaining employees, being inclusive, etc

Recruiting, Retaining, and Advancing a Diverse Technical Workforce: Data Collection and Strategic Planning Guidelines

Published on 01/21/2015 | SKU #6013

Developing a diverse workforce must be treated like any other critical business issue. Use this guide to help you collect important data and develop a strategic plan for increasing the meaningful participation of diverse groups in your organization.

Learn how to implement the "The Action to Catalyze Tech (ACT) Report" recommendations: <https://ncwit.org/CatalyzeTech>.

37

## National Science Foundation (NSF) BPC and INCLUDES Alliances

- "broad coalitions of academic institutions, K-12 schools, government, industry, professional societies and other not-for profit organizations that design and carry out comprehensive programs addressing underrepresentation in computing disciplines"

## Access Computing

- Mission: Increasing the participation of people with disabilities in computing fields
- Undergraduates and Graduate students can connect with mentors and professionals.
- Undergraduate research program
- Resources
  - Disability- and Neurodiversity-Focused Employment Websites

6/27/23

Juniper Networks

38

## NSF Alliances

- Access Computing – people with disabilities
- AIICE – Alliance for Identity Inclusive Computing Education
- CAHSI – Computing Alliance of Hispanic Serving Institutions
- CRA-WP – Computing Research Association Broadening participation
- CSforAll – Resource for CS in K-12 education
- NCWIT – National Center for Women and Technology – create resources, they have a Workforce Alliance
- And many more...

AIICE ALLIANCE FOR IDENTITY INCLUSIVE COMPUTING EDUCATION

# Cultural Competence in Computing (3C's) Fellows

<https://identity.cs.duke.edu/>

- National Program for Computing faculty and professionals
  - To learn more about social science topics (identity, intersectionality, racism, bias and discrimination) and how they impact computing environments
  - To develop some deliverable
- Lot of homework/reading books (6 months)
- Virtual meetings for 6 months of discussion
- My project: developing an online Python Coursera course that is culturally relevant

6/27/23

Juniper Networks

41

## For Example: Bob Moses – Interactive Techniques for Algebra

- 1960's - Civil Rights Activist
  - Organizer Black voter registration drive in Mississippi
  - Fighting the use of law to oppress the black vote
- 1982 – MacArthur Genius Award
- 80's – Closing the gap with algebra
  - No algebra in 8<sup>th</sup> grade in his kids' school
  - First step – get all kids to be able to take algebra
  - Second step – How to empower students, start with a train trip
  - Algebra as a gateway to higher level math/science
  - Huge movement! Interactive approach increased pass rates

Strongly recommend  
his book

6/27/23

Juniper Networks

42

## Outline

- About Me and My Journey
- Diversifying Computing
- Programs for Change
- **Recognition and Visibility**

6/27/23

Juniper Networks

43

## Recognition

- Nominate those underrepresented in computing for awards
- Example 1, Duke Distinguished Professor
  - No women in science had received the award
  - Once pointed out, they started receiving it
- Example 2, Triangle Distinguished speakers – Duke, UNC, NCSU
  - 9 speakers annually, 3 to each university
  - Some years no female speakers

6/27/23

Juniper Networks

44

# How Visible are Notable Women in Computer Science?

- Pondered this question in early 2012
- Looked at Wikipedia
  - The internet encyclopedia
  - Who writes those pages?
  - Why did some notables have pages and others not?
- Turing Award Winners
  - Only two women at that time

6/27/23

Juniper Networks

45

Fran Allen

- School teacher – got a job at IBM
- Compilers and Optimization Technology
- IBM Fellow – First Women
- Turing Award (2006) – First Woman
- The Turing Award was announced on Feb. 21, 2007
- Her Wikipedia page was created on...
  - Feb. 6, 2007
- On Feb 21, 2007 the Turing Award was added to her Wikipedia page.

6/27/23

## Frances E. Allen

From Wikipedia, the free encyclopedia

Fran Allen has made outstanding contributions to the field of programming languages for more than forty-five years, and her work has significantly influenced the wider computer science community.

Ms. Allen is a pioneer in the field of optimizing compilers. Her achievements include seminal work in compilers, code optimization, and parallelization. In the early 1980s, she formed the Parallel TRANslation (PTRAN) group to study the issues involved in compiling for parallel machines. The group was considered one of the top research groups in the world working with parallelization issues. Her work on these projects culminated in algorithms and technologies that form the basis for the theory of program optimization and are widely used in today's commercial compilers throughout the industry.

Ms. Allen's influence on the IBM community was recognized by her appointment as an IBM fellow, the first woman to receive this recognition. She was also president of the IBM Academy of Technology. The Academy plays an important role in the corporation by providing technical leadership, advancing the understanding of key technical areas and fostering communications among technical professionals.

In 1997, Ms. Allen was inducted into the WITI Hall of Fame. Ms. Allen retired from IBM in 2002.

6/27/23

Juniper Networks

47

## Her Wikipedia page now

W Frances Allen - Wikipedia

WIKIPEDIA The Free Encyclopedia

## Frances Allen

From Wikipedia, the free encyclopedia

For other people named Frances Allen, see Frances Allen (disambiguation).

**Frances Elizabeth Allen** (August 4, 1932 – August 4, 2020)<sup>[d]</sup> was an American computer scientist and pioneer in the field of optimizing compilers. <sup>[d]</sup><sup>[s]</sup> Allen was the first woman to become an IBM Fellow, and in 2006 became the first woman to win the Turing Award.<sup>[7]</sup> Her achievements include seminal work in compilers, program optimization, and parallelization.<sup>[8]</sup> She worked for IBM from 1957 to 2002 and subsequently was a Fellow Emerita.<sup>[9]</sup>

### Early life and education

Allen grew up on a farm in Peru, New York, near Lake Champlain, as the oldest of six children. Her father was a farmer, and her mother an elementary schoolteacher.<sup>[6]</sup> Her early elementary education took place in a one-room school house a mile away from her home, and she later attended a local high school.<sup>[10]</sup>

She graduated from The New York State College for Teachers (now part of the University at Albany, SUNY) with a Bachelor of Science degree in mathematics in 1954 and began teaching school in Peru, New York.<sup>[10]</sup> After two years, she enrolled at the University of Michigan and earned a Master of Science degree in mathematics in 1957.<sup>[11]</sup>

### Career and research

Deeply in debt with student loans, she joined IBM Research in Poughkeepsie, New York, as a programmer in 1957, where she taught incoming employees the basics of Fortran. She planned to leave IBM to teach at the University of Michigan.

<b>Born</b>	Frances Elizabeth Allen
	August 4, 1932
	Peru, New York, U.S.
<b>Died</b>	August 4, 2020 (aged 88)
	Schenectady, New York, U.S.
<b>Nationality</b>	American
<b>Alma mater</b>	University at Albany (BS)
	University of Michigan (MS)
<b>Spouse</b>	Joseph T. Schwartz
	(m. 1972–1982)
<b>Awards</b>	ACM Fellow (1984)
	IBM Fellow (1989)
	Ada Lovelace Award (2002)
	Computer Pioneer Award (2004)

6/27/23

48

## What about other Notable Women in Computer Science?

- ACM Fellows
  - Noticed few women, and most did not have a Wikipedia page

## Investigate: Write Wikipedia pages for Notable women in Computing

- How hard is it to write a Wikipedia page?
  - Lots of rules you have to follow
- Another area with few women
  - 2013 study – 16% of Wikipedia writers are female

## Wrote a Wikipedia page

- We had no idea what we were doing....
- In April 2012, at a CRA-W Board meeting ...

## Mary Jane Irwin

- Professor at Penn State University
- VLSI Architecture and Automated Design
- Board Level Designs
  - Arithmetic Cube, MGAP, and SPARTA
- Architecture, Logic & Circuit Design Tools
  - ARTIST, PERFLEX, LOGICIAN, DECOMPOSER
- Awards
  - National Academy of Engineering
  - ACM Fellow, IEEE Fellow
- No Wikipedia page!

In writing her Wikipedia page,

Here is what happens when you don't know what you are doing...

Checked her page two weeks later...

6/27/23

Juniper Networks

53

Spent some time figuring out basics of how to write a biography page

- Checked out other pages
- Did some edits on pages
- Then tried again

6/27/23

Juniper Networks

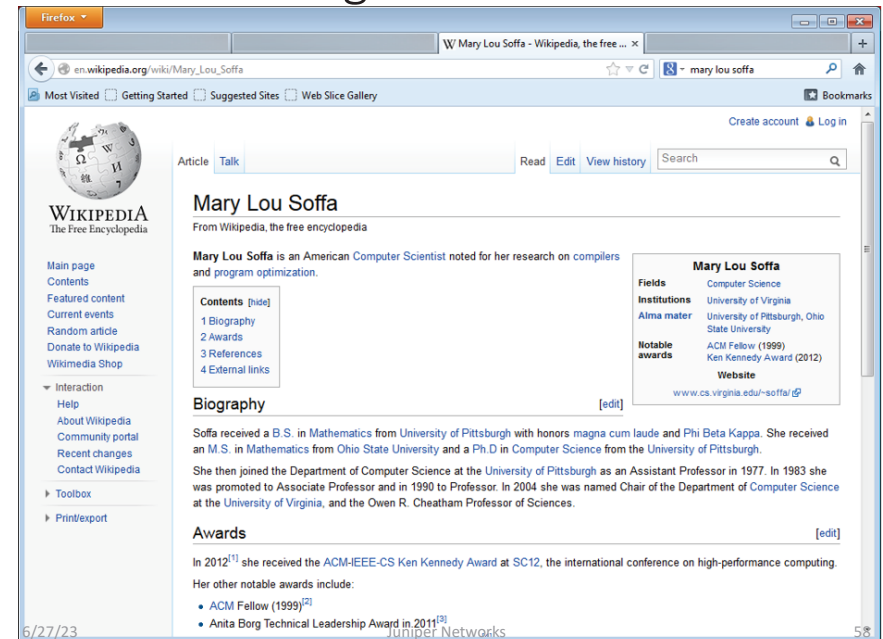

56

# Mary Lou Soffa

- Professor at University of Virginia
- Programming languages
- Compiler technology
- Software Engineering
- Ken Kennedy Award, 2012
  - “provided analytical and experimental models for understanding, predicting and verifying the optimization of software”
- ACM Fellow, 1999
- IEEE Fellow, 2012
- Presidential Award for Excellence in Science, Math and Engineering Mentoring, 1999

I think I figured out how to do it.

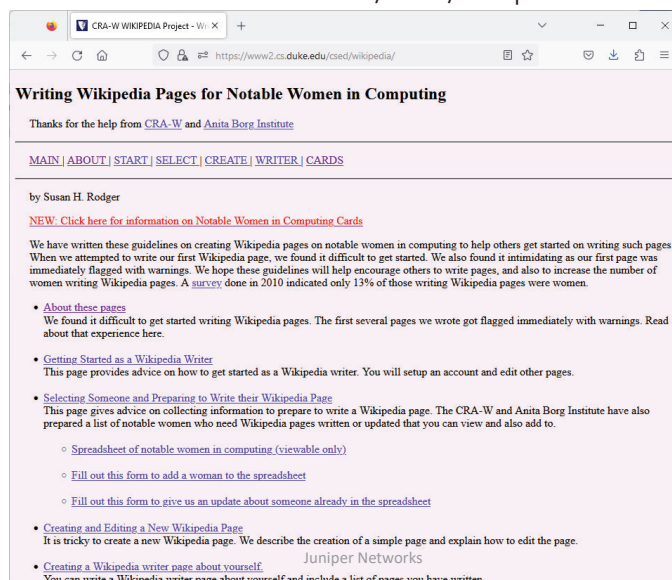

6/27/23
